

## Model: FA-105

### Resettable manual call point

### Product Features:

- Resettable manual call point
- Suitable for NO or NC fire or access systems.
- Meet the requirements of BS5839 Part.
- The casing molded from engineered plastic
- With high impact strength, high resistance to heat.
- With good electrical properties.
- All metal is of brass and phosphor bronze ensuring life long resistance against corrosion.

### Technical Specification:

- Current Ratings : 30V DC 2A Maximum
- Net weight : 110/160g
- Operating temperature : -30°C to 70°C
- Alarm Impedance : 280Ω , 470 Ω
- Colours available : Red, Green , White, Yellow, Blue
- Connections : Terminal – max 2.5 mm<sup>2</sup> cable
- Language : per customer requirements
- Four kind of wire connection method
